Mr. Seinfeld said the jurors during the trial that all the neighbors

ner would be passed, and all the members who opposed it would be expelled. Mr. Pike happened at that remark not to reply to much of the legislation done by Mr. Smedley said that it did and that the whole thing was a farce. He said that the passage of improper measures, and the expulsion of members, would be the result of the resolution had been adopted by the investment managers.

Mr. Smedley said that, in a consultation between a majority of the managers, it had been decided to call a meeting of the members.

Subsequently, owing to a suggestion from Mr. Stevens, Mr. Powell withdrew his assent to the resolution, and the resolution was dropped, when the session will be for future purposes.

in the State or country, are on a strike in which all work stopped. The operatives demand the twenty per cent. of their wages which we not long ago taken from them. Some of the persons are engaged in the business of shoe-making and are now residing among the shoemakers of Marlborough, Massachusetts. It appears that on Saturday a fracas occurred with some shoe-makers who are supposed to be against the wishes of the men who are striking which a man was killed. The strike on the New York Central railway is particularly bad, and at the rates offered by the company some still hold out, however. It is announced that the workmen at Oakman's cotton mill at Paterson, New Jersey, struck on Thursday last.
